- Resilient in extreme weather & environmental conditions.
- Supports Black listed (wanted) & White-list (approved) vehicle databases.

SenFORCE FIXED[®]

Illegal Stopped Parking
Management & Illegal
Rubbish Dumping
with Automated ANPR

SenFORCE FIXED[®]

Illegal Stopped Parking Management & Illegal Rubbish Dumping

HOW DOES IT WORK ?

DIGITALLY captures the vehicle

ACCURATELY locates number plate

CONVERTS number plate to text data

INTEGRATES images and video clip

ALERTS immediate traffic violation

SECURE evidence transfer over cloud

Motorists are all too frequently taking advantage of using Bus Stops and School Zones to drop-off and pick-up passengers with no regard, causing delays for legitimate road users.

Councils are facing massive clean up bills having to remove illegally dumped rubbish in public streets, often having to also deal with hazardous waste at great cost and risk to the community.

SenFORCE FIXED is designed with these concerns and more in mind, to provide irrefutable evidence of the violators and send a clear message that inconsiderate behaviour will be enforced and not tolerated.

Core Specifications

Processing Architecture	Server based
VPU Operating System	Linux
Back Office server Operating System	Windows/Cloud hosting available
Sensor type	Axis Q1775, Dual Colour and Infrared
3rd Party systems Integration supported	XML over TCP/IP, FTP SOAP, Database layer & other options
Power	Solar is recommended standard operation
Mounting & Communications	Single pole with 3/4G communications

ILLEGAL DUMPERS

Unit 4 / 71 Victoria Crescent, Abbotsford, VIC 3067, Australia.
